I had what I perceive as my spiritual awakening in this lifetime within the 2005-2007 timeframe. This opened me to a greater portion of Creation in a very direct way. Which took me on a path that included numerous initiations and activations. As I delved into researching and studying consciousness and spirituality, I also began interacting, on a more visceral level, with those from higher dimensional planes and non-terrestrial Beings began working with me.

I am bringing forth the wisdom from our ancestors and our cosmic and stellar families through shamanistic practices that acknowledge and instill us with more of the truth of who we are. For we are Divinity manifest in Creation. Expanding and instilling our inherent and innate wisdom, from within to the without. As we re-member that we are Multidimensional Luminous Expressions of the Divine. Perceiving Creation as Individuated Fractals of Oneness, all here and now.

I feel I am now in a position in which I have wisdom to share concerning the consciousness shift/expansion that we are going through on an individual level as well as through the unified collective, or, whole of humanity.
